Yeast and The Microbiome

- 78 yeast metabolic products cross react with body tissues - especially the thyroid
- Create a toxic environment that damages the liver with alcohol and acetaldehyde byproducts
- Create an environment that favors the growth of bacteria, viruses, and parasites

Rx Yeast Overgrowth

- **Pico Silver®**: Picometer-sized, stabilized ions of silver are the proper size for cellular absorption and are safe and effective. They do not build up in tissues as do silver compounds or colloidal silver. They are powerful antimicrobials without side effects.*
- **Flora ReVive®**: *Saccharomyces boulardii* - a natural antifungal yeast.
- **Inulin**: A prebiotic
- **Humic/Fulvic acid**: Soil based prebiotics and probiotics
- **RnA ReSet® Powder**: A catalyst of germinated barley seeds.

Pico Silver®

Silver has been used for centuries to protect the immune system and support wellness.

- Pico Silver® is not a colloid. It is stabilized silver ions produced from pure silver.
- Colloids refer to small particles floating or suspended in a liquid.
- Many studies have been done on Ionic Silver's effect on, for one example, the Herpes virus. Other manufacturers may make direct claims to cure herpes, etc. We cannot and will not make such claims given that our Pico Silver® is legally sold as a dietary supplement.*

Pico Silver[®]

- Pico Silver[®] is created by a process similar to our ReMag[®] (magnesium) solution to make stabilized silver ions.
- The soluble solution contains two forms:
 1. 95-98% positively charged ions with no negatively charged ions in a biologically active stabilized silver ion formula in the 125 picometer size range.
 2. 2-5% silver particles in the solution in the size range of 800-5,000 picometers. These are essentially colloids and provide the benefits of that form of silver at 20ppm. The measurements are done with a laser scattering particle size analyzer.
- Pico Silver[®] It is best taken on an empty stomach ½ hour away from food and medications, but this is not a strict rule.
- A dose of Pico Silver[®] can be taken 1-6 times daily depending on the extent to which you want to support your immune system.*

Pico Silver[®] Testimonials

- *After 19 years of suffering with Lyme Disease, I feel better taking Pico Silver!!! I have had no other silver that has ever worked for me like Pico-silver does. For a long, long time, I have experienced the Herxheimer Reaction badly and struggled through it. Pico Silver has made the difference! I plan to test monocytes to prove what I believe is a lowering of my infectious load :)*
- *I'm in love with the Pico Silver. When I first took it, I broke out with pimples on my face, under my hair, and back of neck. Since that passed, I noticed my skin looks younger and clearer than it has in many years. Then, when I read the silver study, I realized why my running injuries might have disappeared so fast: silver helps tissue regeneration.*
- *I've been using Pico Silver for 3 weeks and my sinuses have completely cleared after years of blocked sinuses and breathing issues.*
- *I take my Pico Silver first thing in the morning on an empty stomach - one tsp in 4 oz of water, wait 30 min and take another tsp. I'm experiencing excellent changes in my body. I'm a physical therapist and had rotator cuff problem in both shoulders. With the Pico Silver it seems that my missing cartilage is returning! I can only think that I was dealing with a low grade infection in my cartilage! Also burning in my feet is going away.**
